GOOFY AND SON

Goofy is a loving and sweet father, but his son Max ignores him and is ashamed of him. one day goofy at work was talking to his friend pedro, and he told him about his relationship with his son, pedro tells him it's because he's up to bad things. the principal of max's school calls goofy telling him that max is in trouble and goofy remembers what his friend pedro tells him.

GOOFY AND SON

The reason for the director's call is because he believes that Max is a gang member. Goofy, concerned about his son's education, decides to go on a trip with him to share father and son. Max is angry because he tells Goofy that he had a date with Rocksan the girl he likes, but Goofy asks him to cancel his date. They start their trip and Goofy is still very upset, throughout the trip Goofy changes the routes and does everything possible to go to the concert with which he would go with Rocksan. When Goofy finds out about everything Max did, he feels very sad but nevertheless he cannot be angry with him for his great love, quite the opposite, he helps him get to the concert and Max regrets everything he did

REFLEC TION

| REFLECTION

the discord and selfishness that are generated between parents and children is due to the lack of communication, for these relationships to improve there must be empathy on both sides
